Rudys N Acosta Crousset

Full stark developer in Php, Javascript, Python, Django, Vuejs,
Laravel, React, Firebase, Gcp, docker, linux.
Newark, New Jersey, United States

Summary

With over 10 years of experience as a Web Developer, I have had
the privilege of collaborating with various companies, including
Company24h, ForceSOS, AGL, and Versamed. Throughout my
career, I have worked with various technologies such as Laravel,
Vue.js, React, JavaScript, Php, Django, and Python, MySQL,
and Postgres. My passion for programming is reflected in every
project I undertake, and my commitment to excellence drives me to
constantly seek innovative solutions for the challenges that arise in
web development.

Experience

Doctornote
Full Stack Engineer
January 2021 - Present (2 years 9 months)
Newark, New Jersey, United States

The development of medical software for the management of appointments
and patient records is a company that seeks to modernize and optimize
processes in clinics and medical offices.

oshinstar
Full Stack Engineer
August 2018 - August 2019 (1 year 1 month)
Dominican Republic

I am a Full Stack Developer in Vue.js and Laravel, with experience in Google
Cloud Platform (GCP). My focus spans from designing and developing
complete web applications, including creating user interfaces using Vue.js,
to implementing server logic through Laravel. Additionally, I possess skills in
implementing and managing cloud solutions through Google Cloud Platform.

ImpuestoFácil
Full Stack Developer
November 2017 - November 2018 (1 year 1 month)

Developer and Project Leader in the creation of a Software as a Service aimed at handling and managing tax accounting in the Dominican Republic. Leading the process from conception to implementation, I have overseen the planning and development.

VersaMed Internacional
Senior Web Developer
September 2015 - August 2016 (1 year)
Santiago, República Dominicana

Among my main responsibilities are:

- Managing servers and web resources for the assigned projects.
- Developing web applications in the healthcare and clinical laboratories domain, using Laravel as the Backend framework and AngularJS in the FrontEnd. My focus is on creating solutions that address the specific needs of these sectors, optimizing functionality and user experience.

Phixarmedia
Senior Web Developer
January 2015 - August 2015 (8 months)
Santo domingo

Development of web and mobile applications.
Restructuring and refactoring of projects within the company. My focus is on ensuring efficiency, scalability, and quality in projects through enhancements and optimizations in code and architecture.

AGL
Senior Web Developer
August 2012 - December 2014 (2 years 5 months)
Santo Domingo, Republica Dominicana

In charge of developing modules for a tracking and logistics management application.

Responsible for creating the assigned modules, using Dojo as the Frontend tool and PHP in the Backend. My focus is on providing efficient and functional solutions to optimize logistics operations through an intuitive user interface.

Company24h, Impuesto Facil
Web Development Consultant
August 2012 - January 2013 (6 months)

Coordinating and monitoring the Development Department of the company.

-Providing technical support to troubleshoot potential system failures.
-Configuring the platform for new developments.
-Offering consulting and assistance in various aspects related to the Development Department of companies, acting as an external assistant.
-My goal is to ensure an efficient workflow and contribute to the success of the organization's technological projects.

Impuesto Facil
PHP Web Developer
March 2009 - September 2012 (3 years 7 months)
Santo domingo, Republica Dominicana

Coordinating the company's development department.
Backend programming for the creation of internal CRM and ERP systems. My role involves leading and supervising development team activities, as well as contributing to the design and development of comprehensive management systems that drive efficiency and collaboration within the company.

enparadise
Junior Web Developer
January 2007 - 2008 (1 year)
Santiago, Santo Domingo.

Junior Web Developer specializing in applications within the real estate sector.
